

Aug 8, 2000

Dear Commissioner Jane H.,

Thank you for all your dedicated work for the people of the United States of America.

As a citizen, I'd like to express my concern about the safety of the food I provide for my family and friends. I disagree with the use of genetically engineered (GE) foods & demand that all GE foods be labeled to give me a choice. I'd like to ask that mandatory pre-market safety testing and environmental review of all GE foods be conducted, and that a moratorium be placed on all GE foods until these requirements are met.

It is a fair request that our food and drinks be labeled (and easily deciphered) to provide the people of the USA with the choice of buying and consuming GE foods. My family and I fully support Citizens Petition (Docket # OOP-1211/CPI).

Thank you for lending me your time and consideration. Warmly,

Christine Maloney
